

## Each week, our Summer Adventure Camp experience will include:

**Character Development** - A new Character trait will be introduced every week through presentations and discussions. These traits will be reinforced each week throughout the entire summer using stories, role play and activities.

**Advanced Art Class** - Campers will learn and demonstrate various types of art forms, from classic to modern styles. Campers will be able to keep their advanced art projects.

**Drama Class** - Campers will be introduced to different forms of drama throughout the summer. These drama forms will support and enhance the character trait of the week.

**Swimming Spectacular** - Swimming is what summer is all about! Each week, campers will go swimming once at Bauman Aquatic Center and at Dolphins Cove Water Park every Friday.

**Generation Serve** - Each week campers will engage in various service projects to help them learn the importance of volunteering and giving back to their community.

**Passport to Adventure** - Each camper will have a passport that they will use to document all the places they visit and the adventures they will embark on here at SAC. These lasting memoirs will be theirs to keep forever.
